

DeCircle Solar

Clean, smart solar partnerships across UAE and India.

Your Partner in Solar

Based in Dubai, DeCircle Solar is your dedicated partner in the transition to cleaner, smarter energy. We go beyond traditional solutions by bringing together businesses, cutting-edge technology, and expert knowledge. Our mission is to make solar adoption a seamless and collaborative journey, accelerating a sustainable future for everyone.

Our Mission & Vision

Our Mission

To help our partners unlock reliable and affordable solar opportunities across the UAE and India, driving innovation and sustainable growth through powerful collaborations.

Our Vision

We envision a future where cross-border solar development is simple, seamless, and sustainable, creating a cleaner energy landscape for generations to come.

What We Do

We specialize in creating powerful connections for solar EPCs between the UAE and India. Our team provides expert strategic support, unlocks market access, and cultivates collaboration opportunities, ensuring you find the right partners, projects, and solutions to succeed in the renewable energy landscape.

UAE–India Solar Bridge

03

For UAE Partners

We provide UAE-based engineering, procurement, and construction firms with strategic guidance and local market intelligence to confidently explore and enter India's vast and dynamic solar energy sector, turning complex opportunities into successful projects.

For Indian Partners

We connect Indian EPCs with key stakeholders and high-value solar projects in the United Arab Emirates. Our role is to facilitate strong partnerships that unlock new avenues for growth and participation in the UAE's ambitious renewable energy vision.

Our Shared Goal

By bridging these two powerful markets, we are fostering a collaborative ecosystem. This synergy accelerates business development, drives innovation, and supports the sustainable energy goals of both the UAE and India through shared expertise and resources.

How We Add Value

30%

Accelerate your project timelines with our deep local market insights. We provide the clarity you need to make faster, more confident decisions, turning complex challenges into clear opportunities for growth.

100+

Gain instant access to our curated network of trusted EPCs, suppliers, and strategic partners. We connect you with the right people to ensure seamless collaboration and project success from day one.

-40%

Significantly reduce market entry risks with our strategic guidance. We help you navigate local regulations and logistical hurdles, ensuring a smoother, more predictable path to establishing your solar operations.

An aerial night view of the Dubai skyline, featuring the Burj Khalifa as the central focus. The city lights are visible, and a complex highway interchange is seen in the foreground. The image has a dark, blue-tinted overlay.

Dubai - Our Strategic Location

Strategically based in the Dubai South Business Park, we are at the heart of a major logistics, trade, and energy hub. This prime location allows for seamless coordination of our regional and international solar projects, connecting us with key partners and vital resources.

Who We Work With

EPC Companies

We team up with Engineering, Procurement, and Construction firms who are looking to grow their solar project portfolios, offering expertise and reliable support.

Investors

We collaborate with VC and PE funds focused on clean energy, assisting in due diligence and financial planning. We work with banks and DFIs globally for project financing options, including guarantees and letters of credit.

Businesses

For companies aiming to adopt clean energy, we offer tailored solar solutions that help reduce operational costs and achieve sustainability targets.

Our Sustainability Promise

We believe solar energy must benefit people, businesses, and the planet. That's why every partnership we forge is built on a foundation of long-term environmental and economic value, driving us all toward a cleaner, healthier energy future.

Let's Talk Solar !

Ready to explore solar opportunities between the UAE and India?

Let's connect and start the conversation.
